Hampton-Court, October 19.

HER Majesty, in Council, was this Day pleased to Declare his Grace James Duke of Ormond Lord-Lieutenant of the Kingdom of Ireland.

Her Majesty was likewise pleased to deliver the Great Seal to Sir Simon Harcourt, Kt. who was thereupon Sworn one of Her Majesty's most Honourable Privy-Council, and Lord-Keeper of the Great Seal of Great-Britain, and he accordingly took his Place at the Board.

At the same time the Right Honourable Arthur Earl of Anglesey, and Henry Lord Hyde, were, by Her Majesty's Command, Sworn of Her Majesty's most Honourable Privy-Council, and took their Places at the Board accordingly.

Milan, October 7. N. S. The Death of Cardinal Grimani is universally lamented at Naples. His Corps lay in State three Days, during which the People crowded in great Multitudes to see him. On the 29th of September he was conveyed with much Pomp to the Church del Carmine, where he was deposited. During the Procession, which was very Solemn, all the Bells tolled, and the Cannon fired from the several Castles in the City. The Day following his Obsequies were performed in the Church before-mentioned, and Father Paterno pronounced his Funeral Oration. Immediately upon his Death the Regency took upon them the Administration of the Government until the Arrival of Count Charles Boromeo, who set out from hence the 4th Instant for Naples. The late Cardinal's Corps will be removed to Venice, to be Interred with his Ancestors in a Chappel belonging to the Church of St. Francis de la Vigne. They write from Mantua, that they had received Orders to provide Winter Quarters in that Dutchy, and the Modenese, for some Imperial Troops that were to March thither out of Piedmont. Letters from Florence of the 4th Instant advise, that the Count de Gergi, Envoy of France, had made his Publick Entry the 30th of the last Month, and in the Evening had Audience of the Grand Duke, the Prince, and Princess.

Vienna, October 11. N. S. The Campaign in Hungary is ended, and the Imperial Troops are already marched into the Winter Quarters that have been assigned them. All our Advices from Turkey confirm the Accounts we had before received of the Grand Signior's Resolution to observe the Treaty of Carlowitz. The Dutchess of Modena, Sister to the Empress-Consort, being dead, the Imperial Court is going into Mourning on that Occasion. The Bishop of Osnabrug having been constituted Coadjutor of Treves, he hath received the Compliments of all the Foreign Ministers, and Persons of Distinction, upon his Promotion to that Dignity. They write from Saxony, that it was thought Count Fleming would be made Velt-Mareschal General by the King of Poland, in the room of Count Ogilvi, who died the 8th Instant at Dantzick. The Forces of the Empire continue in their old Camp at Rhin-Zabern, as doth likewise the Enemy's Army behind their Lines at Lauterburg. The French had formed a Project of falling unexpectedly upon the Germans, who having timely Notice of their Design, prevented the Execution of it.

Berlin, October 14. N. S. His Prussian Majesty is at present with the Court at Postdam, where it hath been resolved in Council, that the Fair, which was to have been opened according to the usual Custom in this City the first of the next Month, shall be deferred 'till the ensuing Year, on the account of the Plague which rages so violently in the Neighbouring Countries, and which a concourse of Foreign Merchants may communicate to this Place. All our Magistrates and Officers on the Frontiers have received express Orders not to grant their Passports to any Persons whatever, unless they first produce Certificates of their having resided for a Month before in Places exempted from the Infection. Our Letters from Dantzick tell us, that the King of Poland was come thither, and that it was thought his Majesty would reside there the greatest part of the approaching Winter.

Falmouth, October 17. His Excellency the Earl of Galloway having been obliged by contrary Winds to put into this Harbour, landed here this Day,
